SINCE 2016 · ODHAV, AHMEDABAD

The build of a big brand. The service of a small workshop.

Shree Dhanlaxmi Pharma Machinery designs and fabricates process machinery for solid-dosage and powder handling. Every machine is built in our own workshop in Odhav, Ahmedabad, for pharmaceutical, chemical, agro and cosmetic manufacturers.

Since 2016
Manufacturing in Ahmedabad

5 machines
Milling to coating

4 industries
Pharma, chemical, agro, cosmetic

Direct
From our workshop, no middlemen

Fairer price

A lean manufacturing unit, not a large corporate. You pay for stainless steel, motors and workmanship, not overheads and dealer margins.

Faster delivery

No long order queue. Fabrication starts once your design is confirmed, with photo and video updates while your machine is built.

Talk to the owner

Your enquiry goes straight to the owner, Fuleshkumar Patel. One number for quotation, build updates, installation, spares and service.

INDUSTRIES WE SERVE

Wherever powders and granules are processed.

Pharmaceutical
Tablet and capsule lines: milling, granulation, blending and coating.

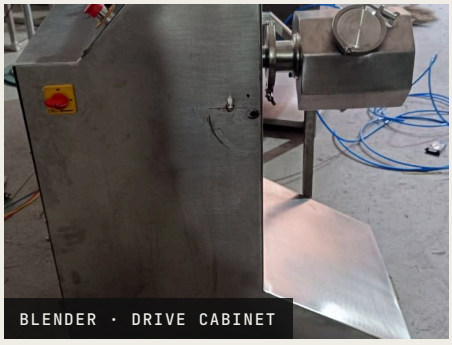

Chemical
Size reduction and uniform mixing of powders and crystals.

Agro
Milling and blending for agro-chemicals, fertiliser and seed treatment.

Cosmetic
Fine milling and blending of powders, pigments and talc.

CO MILL · MOBILE FRAME

BLENDER · DRIVE CABINET

01

Co Mill

CONICAL MILL · CONE MILL

A conical screen mill for uniform sizing and de-lumping of wet and dry granules. The rotating impeller pushes material gently through the conical screen, so particle size stays consistent with low heat and low dust.

KEY FEATURES

- Conical screen with rotating impeller for uniform particle size
- Interchangeable screens for different mesh sizes
- Low heat build-up, suited to heat-sensitive products
- Mobile frame on castor wheels
- Control panel with speed display
- Quick-release clamps for fast cleaning and changeover

APPLICATIONS

Wet granule sizing | Dry granule sizing | De-lumping | Pharma | Nutraceutical | Chemical

02

Multi Mill

MULTI-PURPOSE MILL

A versatile mill for granulating, pulverising and size reduction of wet and dry materials. Swing beaters with knife and impact edges let one machine handle a wide range of products.

KEY FEATURES

- Knife edge and impact edge beaters
- Multiple screen sizes for fine to coarse output
- Handles both wet and dry material
- Forward and reverse rotor direction
- Mobile column stand on castor wheels
- Easy to dismantle and clean

APPLICATIONS

Granulating | Pulverising | Shredding | Pharma | Chemical | Food & agro

03

Octagonal Blender

DRY POWDER BLENDER

A tumbling blender with an octagonal container that turns end over end, giving gentle and uniform mixing of granules and powders before compression or filling.

KEY FEATURES

- Octagonal container for uniform blending
- Gentle tumbling action that protects granules
- Clamped charging lid with gasket
- Control panel with digital timer and emergency stop
- Easy-clean internal surfaces
- Stainless steel construction

APPLICATIONS

Lubrication blending | Dry powder mixing | Pre-compression blending | Pharma | Cosmetic | Food

04

Rapid Mixer Granulator

RMG · HIGH SHEAR MIXER

Dry mixing and wet granulation in one closed bowl. A bottom impeller mixes the powder while a side chopper breaks lumps, producing dense, uniform granules in a short cycle time.

KEY FEATURES

- Impeller and chopper for fast, uniform granulation
- Touchscreen control panel
- Emergency stop and safety switch
- Closed bowl with clamped lid and charging port
- Discharge through side valve
- Stainless steel construction

APPLICATIONS

Dry mixing | Wet granulation | Lab and R&D batches | Pharma | Nutraceutical | Ayurvedic

05

Coating Pan

TABLET COATING PAN

A rotating pan for sugar coating and film coating of tablets. Hot air is blown into the pan while it turns, drying each coating layer evenly.

KEY FEATURES

- Rotating stainless steel coating pan
- Hot-air blower with inlet and exhaust ducts
- Digital temperature controller
- Pan speed control
- Emergency stop
- Stainless steel cabinet

APPLICATIONS

Sugar coating | Film coating | Polishing | Pharma | Confectionery | Ayurvedic

GET A PRICE

Tell us your batch size. We'll build the machine.

Send your machine, material and output on WhatsApp or phone. You get a clear GST quotation with model, scope, delivery time and payment terms written out.

1

Send requirement

Machine, material, batch size and space limits.

2

Clear quotation

Model, scope, delivery and terms in writing.

3

We build it

Fabricated in our Odhav workshop, with updates.

4

Trial and dispatch

Run in our workshop before packing.
